Choice of fabrics

Gesso or spray finish

Woven label

Optional tassel

Optional thread detail

Elegant and exquisite – Precious is a collection of impeccable display accessories for fine and fashion jewellery presentation.

Exclusively designed and trialled in the proportion>london design studio, these well considered pieces are both practical and beautiful in equal measures. From luxuriously upholstered and finished forms to delicate stands and multi-tasking trinket trays each piece will earn its keep and show your jewellery and accessories to their utmost advantage.

For finishing upholstered forms, choose from classic linen or peachy suedette fabrics in muted pastel colours or custom specify your own materials. Ring, necklace and cufflink boxes can be fully upholstered or sprayed to your specification, and can be mounted on variable angle stands for table-top displays. Support stands and bases offer a choice of stained or sprayed wood, shiny chrome or for funkier brands: raw metal. Further metal plating options are also possible by special request.

We believe we have captured enough variety to satisfy most aesthetics and budgets, but for that extra special touch, you may feel inclined to add tassels, brand labels or thread detailing: making these presenters almost as special as the jewellery they are showcasing.
