Sculpt hair head

Natural head

# Fluid

Staying one step ahead of the fashion pack, FLUID is a quintessentially modern collection of abstract female mannequins; each a snapshot of real-life movement, featuring soft flowing lines and subtle sculpting details.

Infused with a delightfully sassy character, FLUID has been designed with interchangeable arm fittings, which make a huge number of playful pose combinations possible. This brochure showcases 16, but we've found 25 and we're still counting!

These coquettish and flirtatious girls can be selected with a no feature head, cute ballerina sculpted hair a natural head or abstract wig and make-up options.

The embodiment of contemporary feminine chic, FLUID is a welcome addition to any fashion-forward retail space, with a version for everyone, from the funkiest boutique to the most sophisticated department store.

## Measurements:
