The HARLEQUIN is an ingenious morph of mannequin and bust form originally created by proportion>london during the 1980s: Our design team have brought this original concept right up to date with newly sculpted body shapes. HARLEQUIN unites fibreglass, papier-mâché and beautiful wood in a stunning range of versatile male and female figure options.

At once classic and contemporary, HARLEQUIN figures are available in a number of different finishes, enabling each client to style them according to their own brand image.

For lovers of bust forms, we can upholster HARLEQUIN figures in timeless cream calico, which can be vintage stained or finished in our brand new gesso effect. We also offer an extensive selection of fabrics to choose from, or can work with client-supplied fabric to obtain your desired look.

For those who prefer a fibreglass mannequin, HARLEQUIN provides an ideal base for either one colour spray finishes (to the client's exact specification) or more realistic skin tones, with makeup and wigs. Our own make-up and hair technicians are on-hand to deliver the perfect finishing touches with an authentic artisan feel.

Offering a fantastic choice in both pose and figure options, every figure in this collection is carefully created by highly skilled craftspeople at our North-East London production site, affording clients every opportunity to customise each piece, which makes HARLEQUIN the first and last word in bespoke visual merchandising.
